

# KwikAIR MB50

Ventilation Fan

Stand Alone

Green

Electric

Quick Plug & Fit

Small Footprint

## Description

The KwikAIR MB50 manually operated cooling fan is designed to circulate large volumes of clean fresh air to create a comfortable working environment. As with all of our range of ventilation fans, it will also help disperse the build up of fumes, dust and other noxious gases and materials in the atmosphere.

## Typical applications

- Gymnasium
- Garage
- Retail outlet
- Canteen
- Meeting room
- Laboratory
- Engine room
- Storage room
- Office
- Restaurant
- Workshop
- Marquee (Temporary structures)
