

steaming ahead in industry

Watkins Hire Ltd

steam boiler hire

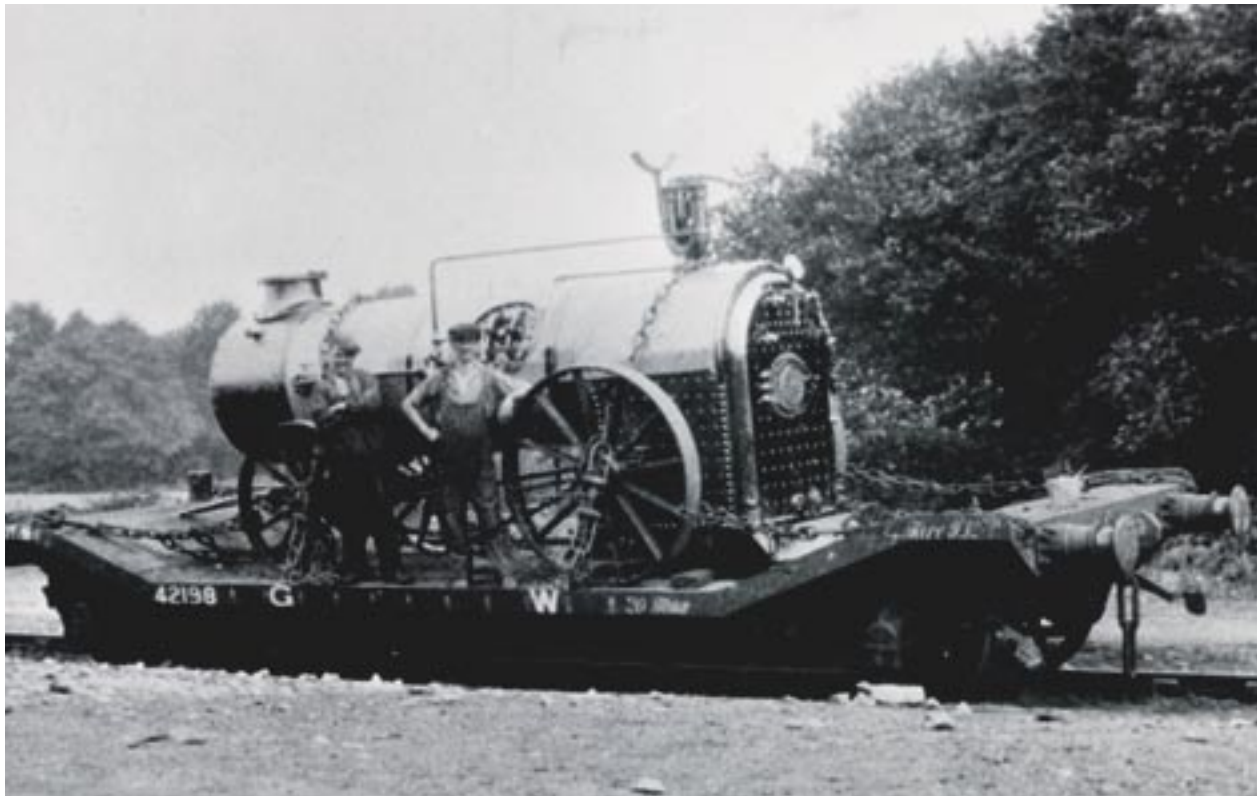

more than a century of experience

In 1860, when British industry was dominating the globe, the Watkins Group of companies was established.

The company originated the concept of steam and heating boiler hire and was distributing its first units as early as 1930.

Watkins Hire is the only company to offer dedicated boiler hire services via a nationwide network of depots in the West Midlands, Gloucestershire, Yorkshire, Hampshire and Oxfordshire.

“We’ve been serving the needs of British Industry since 1860”

Continued product development and understanding of our customers' requirements has meant WHL remains the industry leader and further expansion is planned!

servicing the needs of diverse industries

From abattoirs to breweries, chemical refineries, contract energy management, dairy, defence, distillers, food manufacturers, glass manufacturers, growers, government departments, hospitals, laboratories, laundries, motor industry, moulding, nuclear, oil refineries, process companies, paper mills, power stations, plastics, pharmaceuticals, rubber, steel producers, textile, tanneries and utilities companies, Watkins Hire Ltd provides the greatest choice to customers for on-demand, reliable steam boiler hire.

rapid response

“ **Plant failure never happens at a convenient time. WHL will help you with contingency planning.** ”

Wherever you are located in the UK you are never too far from our friendly and experienced hire specialists. With coverage across the UK, we are able to provide you with fast, reliable cost-effective steam boiler rental systems.

mobile trailerised steam plantrooms

A range of units providing a rapid, temporary boiler house facility.

Each is complete with boiler, feed water tank, blowdown vessel, water treatment plant, pipework, associated electrics and internal lighting.

Units currently range in size from 1,000lbs/hr (450kg/hr) to 20,000lbs/hr (9090kg/hr).

Benefits of trailerised units are:

- No costly craneage
- Rapid on-line time
- Reduced installation costs
- Security
- No foundations required

“ Attention to every detail is the hallmark of Watkins Hire units ”

static steam boilers

140,000-lb/hr @20 bar running a paper mill during a planned outage.

We have a fleet of static boiler units ranging from 550lbs/hr (250kg/hr) up to 70,000lb/hr (31760kg/hr) with working pressures available up to 350psi (24 BAR) on selected units.

“ Whether it’s an emergency, a plant expansion or modification, or just regularly scheduled maintenance, WHL is there with the right equipment at the right time 24 hours a day ”

major projects

70,000-lbs/hr of steam @ 10 bar during combined heat and power contract - period 2 years

80,000-lbs/hr @ 10 bar on a long-term rental contract

From initial planning to delivery, installation, commissioning and handover; the WHL highly-experienced and professional sales, design and contract team is able to handle the complete project, working closely with the customer to ensure the final handover meets their demands.

packaged containerised steam plantrooms

A compact, weather-proof packaged boiler house, designed and fabricated from years of experience and expertise, resulting in a standard unit containing boiler, hotwell, blowdown vessel, pipe work, associated electrics and internal lighting.

Benefits include:

- Compact and secure
- Easily transported and craned into position
- Rapid site installation
- Weatherproof
- No foundations required

Units currently range in size from 1000lbs/hr (450kg/hr) to 10,000lbs/hr (4500kg/hr)

WHL's ancillary equipment division offers all the equipment that supports our steam boiler rental systems.

- Chimneys
- Buildings
- Generators
- Bunded Fuel tanks
- Blowdown vessels
- Valves
- Spares
- Water tanks
- Pressure reducing stations
- Flexible steam and condensate pipe work

With a dedicated service team of 14 engineers and growing to exclusively support our systems, and with our own fleet of delivery vehicles with Hiab cranes capable of lifting 12 tonne.

long-term boiler rental contracts

Steam boiler rental is the complete solution to long-term steam management of works and services that include:

Typical contracts of 5 to 10 years.

- Brand new boiler (manufacturer of your choice)
- Lox Nox burner on your desired fuel (Dual fuel if required)
- Spirax high integrity water level controls (demanded)
- Spirax auto TDS and Blowdown systems
- Feed water tank
- Complete feed water treatment plant to suit your site conditions
- Blowdown vessel
- Economiser for boiler (Optional)
- Boiler house (Optional)
- Complete installation of pipe work and electrics
- Auto dialer fault reporting system (Optional)
- Chimney

Simplified budgeting is achieved through the introduction of a fixed cost contract, incorporating the cost of new plant, all annual inspections, breakdown service on complete failure replacement, with a new boiler and optional, planned preventative maintenance.

3 off 10,000-lb/hr 150psi plant rooms on a 15-year rental contract

“ All plant installed will be guaranteed for the full contract period transferring the risk of any repairs away from your company ”

MAJOR BENEFITS

Watkins Hire steam boiler rental solutions bring your company:

- Financial Savings through fuel efficient new equipment
- Cost Predictability and budgeting
- No hidden costs
- Energy and Environmental Efficiency (Reduced Emissions)
- Capital Investment in new steam plant by WHL
- Transfer of Risks of plant failure and breakdown

Our objective is to deliver a Steam boiler rental management facility that is tailored to the needs of your business. For companies who need to concentrate on their core business, both financially and on management time, Watkins Boiler rental contracts can provide cost-effective and environmentally efficient solutions.

“ Is your steam boiler plant giving you headaches?
Our dedicated service team backed by a fleet of mobile Steam boilers and ancillary equipment is focused on keeping you in operation ”

“ All plant installed will be guaranteed for the full contract period transferring the risk of any repairs away from your company ”
